👤 PROFILE

- A Computer Science graduate with a passion for coding and problem-solving. Skilled in various programming languages and software development. I am organized, efficient, and hardworking, with a willingness to explore and implement new ideas effectively.

📁 PROJECTS

Dentist Appointment 🔗

Dentist Appointment

- Developed a responsive dentist appointment booking website using HTML, CSS, JavaScript, and Bootstrap.
- Implemented features such as appointment scheduling, form validation, and dynamic updates for user interaction.
- Utilized Bootstrap for a mobile-friendly design and JavaScript for client-side validation and interactivity.
- Ensured cross-browser compatibility and a user-friendly interface.

Shopping List 🔗

Shopping List CRUD Application

- Built a shopping list management system using HTML, CSS, and JavaScript.
- Implemented full CRUD functionality (Create, Read, Update, Delete) for managing items in the list.
- Developed a simple and intuitive user interface with CSS for styling and JavaScript for dynamic updates.
- Optimized the application for seamless user experience with real-time data updates.
